

## Making Tax Digital (MTD) shouldn't take you more than an hour away from your core business.

While digital submission is mandatory under the new HMRC ITSA Compliance Regulations, the reality is that ongoing manual bookkeeping is time-consuming. To save you time and money, **123 Tax Team** has partnered with **123 Sheets**. As an authorized reseller, we are proud to offer an exclusive, first-time buyer's discount on premium software products specifically designed for landlords, contractors, and self-employed sole traders.

**The 123 Tax Team Advantage:** Unlike buying generic licenses, our structures include dedicated **Telephone Support** to guide you step-by-step through your digital records and submission frameworks.
